NO.5 An account buyer logs into the storefront, but does not see the addresses associated with their account on the My Account page.

What is the reason for this behavior?

- A. By default, the account buyer needs to create an order before the Account Address Book is displayed
- B. The Profile Navigation - Account Shoppers widget instance settings was not configured to include

an option for Account Address Book

C. The account buyer did not have the correct storefront role to access the Account Address Book

D. The Contact Login (for Managed Accounts) element is configured on the header widget which only supports B2C login

Answer: B
